

FIRE PROTECTION LTD

Quality Management System Policy

It is Fire Protections Limited's policy to continue to meet the expectations of our customers (and thus maintaining our leading position in the industry) by providing **Passive Fire Protection – Manufacture and Installation of Fire Rated Duct**, to agreed standards, specifications and time scales.

We will achieve this by the following objectives:

Ensuring our prices remain competitive through continuous improvement of our products, services, processes and business systems.

Providing our employees with the resources, training and motivation to encourage their commitment to our success.

Working closely with our key suppliers and deal fairly with our valued suppliers.

We will monitor the effectiveness of our quality policy through measurable objectives and continual review of our quality system. Our objectives are set and reviewed at the Management System Review meeting.

We are committed to maintaining accredited ISO 9001:2015 certification through co-operation, motivation and effective collaboration with all our interested parties. This will ensure consistency of approach, continual improvement and confidence/trust in our processes to deliver products and services to requirements.
